

**Hall-Dale School District  
MSAD #16**

**ERate 470 Funding Year 2008-2009**

**Request for Proposals**

**Telecommunications Services**

**1. Local and Long Distance Telephone**

Our contract for 25 analog lines has expired. We are looking for options for keeping our existing numbers and lines, or replacing them with a PRI or BRI plus some analog lines for security, elevators, fire alarms, etc.

**2. Wireless Telephone Service**

Our existing cellular telephone contract has expired. We are need options for new plans that include ten phones. Some of the phones should be just basic service, others will require smartphone capabilities such as Blackberry, iPhone, or other.

**Internet Access**

**1. Central Office Internet Connection**

Currently we utilize a DSL connection into our central office. We need options for Internet access into the building.

**2. Interconnected Voice over Internet Protocol Services**

Currently we host our own VoIP server with 159 registrations. We are soliciting bids for SIP compliant software maintenance.

**3. Digital Transmission Services**

As part of our VoIP system we need options on fiber optic connection between our buildings for the transmission of voice and data in support of our SIP VoIP system.
